SICK OF SLOW BUSES?

Many bus routes in New York are longer than taking Amtrak from New York City to Philadelphia! Since 1990 bus ridership has increased nearly 60% and today, 2.7 million passengers ride the buses each day. Despite this growth, bus speeds have remained stagnant or gotten worse.

But help is on the way – NYC Department of Transportation and MTA New York City Transit are working together to bring a world-class system of “Bus Rapid Transit” to NYC. Look on the back to learn more about Bus Rapid Transit and how to make it work for you.
