STRAPHANGERS CAMPAIGN STATEMENT ON GOVERNOR CUOMO’S CANARSIE TUNNEL REHABILITATION PLAN

"Governor Cuomo's plan is laudable, but the devil is in the details. Straphangers deserve a plan that will fix the Canarsie Tunnel with as little impact to their daily lives as possible, but they also deserve public accountability and details as to how long this new plan will take, how much it will cost, and how exactly it will impact service. Riders deserve a real plan with real specifics, which right now they don't have. The riding public is counting on the Governor's success on the L line, and on every subway line, to repair our city's corroding subway system.
